Introduction

With more than 25 years in mastering the marble industry of the Middle East. Pietra Palazzo, has now gained its loyal client's trust in delivering the most unique outcomes.

We thrive in elegantly furnishing marble, granite, onyx, travertine, and limestone in bright or delicate colours and harmonizing tones.

Pietra is the ideal collaborator for giving shape to any project. It provides competent and passionate assistance to engineers, designers and architects.

Moreover, Pietra and its compassionate companions are looking forward to converting nature into a beautiful living substance.

Our Values

Our Mission

Our generous mission is to beautify every area with grandeur, refinement, and unsurpassed quality, while remaining true to the values on which this organisation was formed.

Moreover, we have constantly delivered and will continue to bring the globe the highest amounts of the finest marble by applying cutting-edge technologies.

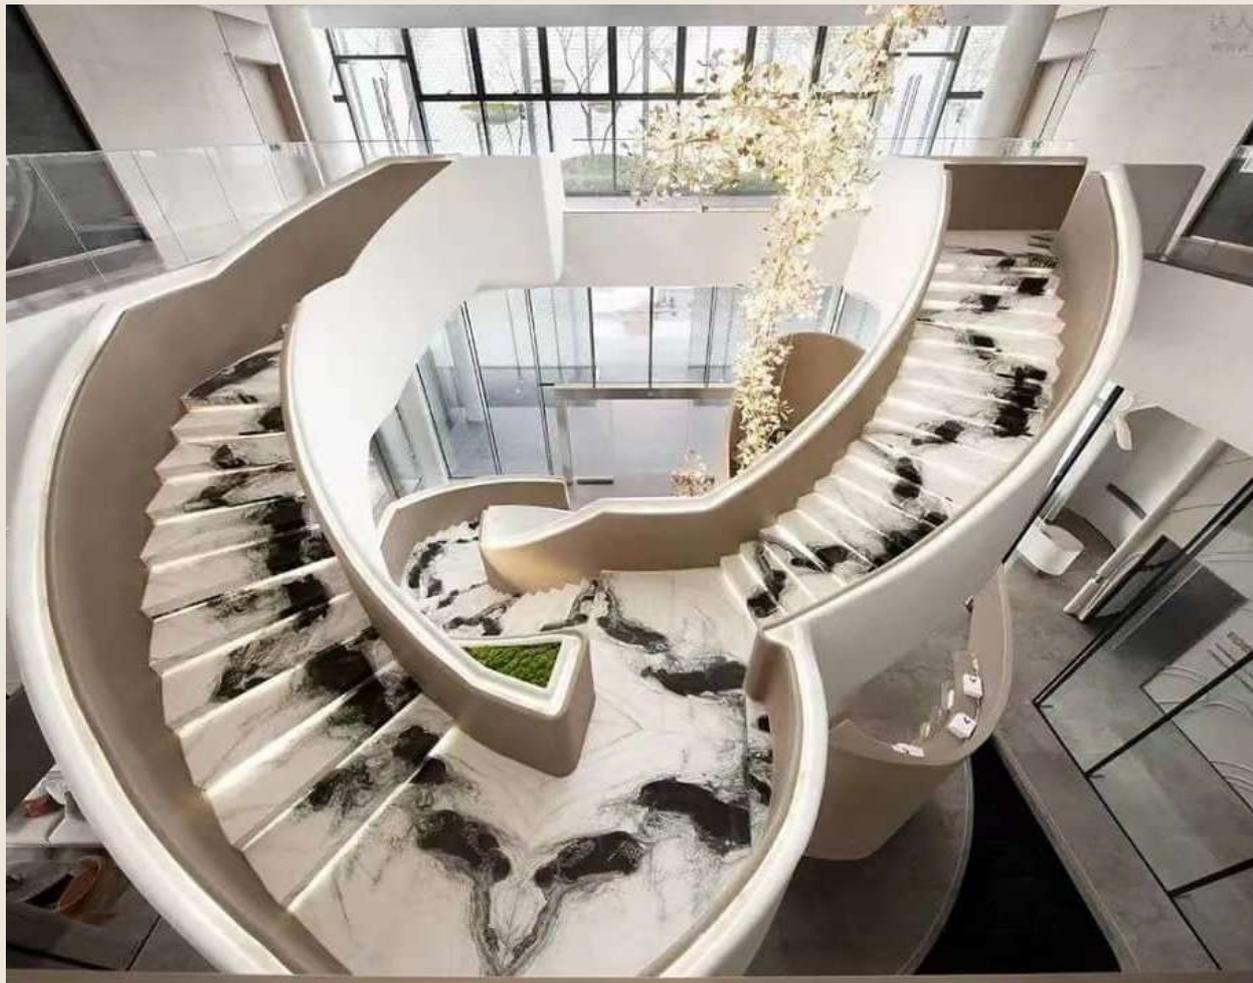

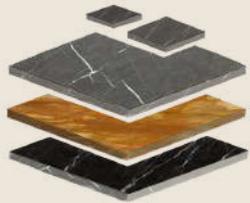

Our philosophy is to use our experience to meet the demands of each client by providing quality products and services at reasonable costs.

Our Vision

Our ultimate focus and vision is to be able to trade our marbles abroad in order to be a highly trustworthy company that is internationally recognized.

We strive to earn our clients' trust and deliver our utmost highest quality work possible. We aim to create art that can be summed up in one word: exquisite, inspired by millennia of stone skill.

Allow us to put our years of experience to work for you. From start to conclusion, expect persistent, responsive, detailed, and intelligent communication.

**A Leading Supplier of
Natural Stones**

Delivering With Perfection

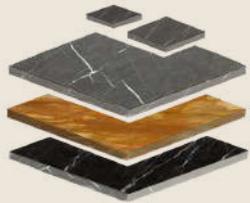

Quality Standards

We acquire stone from the world's finest stone suppliers, who are aware of our strict quality standards.

All of the most common stones (Quartzite, Marble, Granite) are available, as well as magnificent stones such as onyx and limestone.

Choose Pietra Palazzo for the best variety of real stone. The undisputed specialist in naturally stunning surfaces.
